

RESOLUTION TO AMEND CEMETERY ORDINANCE -No. 2018-1

Town of Frankfort, Pepin County, WI

Whereas, the Town of Frankfort is aware of “green burials” or other non-traditional methods of the interment of human remains are preferred by many people and families of the deceased because of the cost-effective nature of a natural interments, conservation of resources, environmental safety, and land conservation concerns.

Whereas, the Town of Frankfort also recognizes that uncontrolled natural (or any type) of burials outside the locations designated as cemetery grounds can create problems regarding the unintended disinterment of human remains in the future as well as potential reduction of property values of lands subject to restrictions associated with the presence of deposited human remains.

Therefore, be it resolved ~~that~~ the Town of Frankfort Town Board does agree to act upon the recommendation of the planning committee and amend section VII (c) by striking out the following; ‘without a conditional use permit pursuant to the Town of Frankfort Zoning Ordinance.’

Be if further resolved, that Section VII (C) shall now read: ‘No burials may be made on privately owned lands, that are not currently designated as cemeteries.’

Adopted: 4-21-2026
